A Day in Nature!

My sister and I went for a walk in nature. We heard a bird up in a tree. We saw a bug eating a leaf. We stopped to smell a flower. We put our hands in the creek water. The water felt cold. What a nice day in nature.

Draw a picture to match the story

Animal Tracker!

My uncle and I went for a hike in the forest to look for animal tracks. The best place to find animal tracks is in the mud, so we went to the muddy part of the forest. First, we saw tiny little paw prints that were made by an animal who was hopping along. My uncle told me they were made by a red squirrel. Next we found bigger tracks, with 4 toes and 4 claws. My uncle said they were fox tracks. Finally we found the biggest tracks of all. I was so excited when my uncle said the big tracks were made by a bear! Finding animal tracks in the mud was so much fun.
