Independent Auditor's Report

To the Members of Lake Simcoe Region Conservation Authority

Opinion

We have audited the financial statements of Lake Simcoe Region Conservation Authority, which comprise the statement of financial position as at December 31, 2022, and the statements of operations, changes in net financial assets and cash flows for the year then ended, and notes to the financial statements, including a summary of significant accounting policies.

In our opinion, the accompanying financial statements present fairly, in all material respects, the financial position of Lake Simcoe Region Conservation Authority as at December 31, 2022, and its results of operations and its cash flows for the year then ended in accordance with Canadian public sector accounting standards.

Basis for Opinion

We conducted our audit in accordance with Canadian generally accepted auditing standards. Our responsibilities under those standards are further described in the *Auditor's Responsibilities for the Audit of the Financial Statements* section of our report. We are independent of Lake Simcoe Region Conservation Authority in accordance with the ethical requirements that are relevant to our audit of the financial statements in Canada, and we have fulfilled our other ethical responsibilities in accordance with these requirements. We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our opinion.

Responsibilities of Management and Those Charged with Governance for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with Canadian public sector accounting standards, and for such internal control as management determines is necessary to enable the preparation of financial statements that are free from material misstatement, whether due to fraud or error.

In preparing the financial statements, management is responsible for assessing Lake Simcoe Region Conservation Authority's ability to continue as a going concern, disclosing, as applicable, matters related to going concern and using the going concern basis of accounting unless management either intends to liquidate Lake Simcoe Region Conservation Authority or to cease operations, or has no realistic alternative but to do so.

Those charged with governance are responsible for overseeing Lake Simcoe Region Conservation Authority's financial reporting process.

Auditor's Responsibilities for the Audit of the Financial Statements

Our objectives are to obtain reasonable assurance about whether the financial statements as a whole are free from material misstatement, whether due to fraud or error, and to issue an auditor's report that includes our opinion. Reasonable assurance is a high level of assurance, but is not a guarantee that an audit conducted in accordance with Canadian generally accepted auditing standards will always detect a material misstatement when it exists. Misstatements can arise from fraud or error and are considered material if, individually or in the aggregate, they could reasonably be expected to influence the economic decisions of users taken on the basis of these financial statements.

As part of an audit in accordance with Canadian generally accepted auditing standards, we exercise professional judgement and maintain professional skepticism throughout the audit. We also:

- Identify and assess the risks of material misstatement of the financial statements, whether due to fraud or error, design and perform audit procedures responsive to those risks, and obtain audit evidence that is sufficient and appropriate to provide a basis for our opinion. The risk of not detecting a material misstatement resulting from fraud is higher than for one resulting from error, as fraud may involve collusion, forgery, intentional omissions, misrepresentations, or the override of internal control.
- Obtain an understanding of internal control relevant to the audit in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of Lake Simcoe Region Conservation Authority's internal control.
- Evaluate the appropriateness of accounting policies used and the reasonableness of accounting estimates and related disclosures made by management.
- Conclude on the appropriateness of management's use of the going concern basis of accounting and, based on the audit evidence obtained, whether a material uncertainty exists related to events or conditions that may cast significant doubt on Lake Simcoe Region Conservation Authority's ability to continue as a going concern. If we conclude that a material uncertainty exists, we are required to draw attention in our auditor's report to the related disclosures in the financial statements or, if such disclosures are inadequate, to modify our opinion. Our conclusions are based on the audit evidence obtained up to the date of our auditor's report. However, future events or conditions may cause Lake Simcoe Region Conservation Authority to cease to continue as a going concern.
- Evaluate the overall presentation, structure and content of the financial statements, including the disclosures, and whether the financial statements represent the underlying transactions and events in a manner that achieves fair presentation.

We communicate with those charged with governance regarding, among other matters, the planned scope and timing of the audit and significant audit findings, including any significant deficiencies in internal control that we identify during our audit.

December 31, 2022

1. Nature of operations

The Lake Simcoe Region Conservation Authority (the "Authority") was established on September 6, 1951 by Order-in-Council No. OC-1723-51, in accordance with Section 3(1) of the Conservation Authorities Act of Ontario. The objective of the Authority, as stated by the Conservation Authorities Act R.S.O. 1990 is "to provide for the organization and delivery of programs and services that further the conservation, restoration, development and management of natural resources in watersheds in Ontario".

2. Summary of significant accounting policies

Management responsibility

The financial statements of the Authority are the responsibility of management. They have been prepared in accordance with Canadian public sector accounting standards established by the Public Sector Accounting Board of the Chartered Professional Accountants of Canada.

Basis of accounting

Revenue and expenses are recorded on the accrual basis, whereby they are reflected in the accounts in the year in which they have been earned and incurred, respectively, whether or not such transactions have been settled by the receipt or payment of money.

Various revenue and expense items flow through the statement of financial activities based on their general nature in relation to operating activities. To the extent that these revenue and expense items relate to specific reserve balances, these items are reflected on Schedule 8 – Statement of Continuity of Reserves.

Cash and cash equivalents

The Authority considers deposits in banks and short-term investments with maturities of three month or less as cash and cash equivalents. Cash and cash equivalents comprise cash on hand, demand deposits and short-term cashable investments.

Non-financial assets

Non-financial assets are not available to discharge existing liabilities and are held for use in the provision of services. They have useful lives extending beyond the current year and are not intended for sale in the ordinary course of operations.

December 31, 2022

2. Summary of significant accounting policies (continued)

Tangible Capital Assets

Tangible capital assets are recorded at cost which includes all amounts that are directly attributable to acquisition, construction, development or betterment of the asset. Tangible capital assets received as contributions are recorded at their fair value at the date of receipt and recognized as revenue. The costs, less residual value, of the tangible capital assets are amortized on a straight-line basis over their estimated useful lives commencing once the asset is available for productive use as follows:

- Land improvements 20 years
- Building and Building Improvements 20 to 40 years
- Furniture and Fixtures 20 to 25 years
- Machinery and Equipment 4 to 10 years
- Vehicles 5 to 10 years
- Computers and Computer Software 4 to 10 years
- Infrastructure 20 to 55 years

Leased Tangible Capital Assets

A lease that transfers substantially all of the benefits and risks of ownership to the lessee is recorded as a tangible capital asset and the incurrence of a lease obligation. At inception, a tangible capital asset and an obligation are recorded at an amount equal to the lesser of the present value of the minimum lease payments, excluding executory costs, and the leased property's fair value at the beginning of the lease. The discount rate used to determine the present value of the lease payments is the lower of the rate of incremental borrowing or the interest rate implicit in the lease.

Leased tangible capital assets are amortized on a straight-line basis as follows:

• Office Equipment - 4 years

Vacation pay and lieu time liability

Vacation credits earned but not taken and lieu time entitlements are accrued as earned.

Reserves

Reserves for future expenses and contingencies are established and approved for use as required at the discretion of the Board of Directors. Increases or decreases in these reserves are made by appropriations to or from operations.

2. Summary of significant accounting policies (continued)

Government transfers

Government transfers and municipal levies are recognized as revenue in the financial statements when the transfer is authorized and any eligibility criteria are met, except to the extent that transfer stipulations give rise to an obligation that meets the definition of a liability. Government transfers and municipal levies are recognized as deferred revenue when transfer stipulations give rise to a liability. Government transfers and municipal levies are recognized in the statement of operations as the stipulation liabilities are settled.

Restricted revenue

Contributions, other than government transfers, are deferred when restrictions are placed on their use by the external contributor and are recognized as revenue when used for the purpose specified.

Other grants, donations and contributions, amounts received from Lake Simcoe Region Conservation Foundation and authority-generated revenue are recognized when the related services are performed.

Use of estimates

The preparation of the financial statements in accordance with Canadian public sector accounting standards requires management to make estimates and assumptions that affect the reported amounts of assets and liabilities and disclosure of contingent assets and liabilities at the date of the financial statements, and the reported amounts of revenues and expenses during the reporting period. The principal estimates used in the preparation of these financial statements include accounts receivable, estimated provisions for accrued liabilities, the estimated useful lives of tangible capital assets and valuation of tangible capital assets. Actual results could differ from management's best estimates as additional information becomes available in the future.

Retirement benefits and other employee benefit plans

The Authority is an employer member of the Ontario Municipal Employees Retirement System (OMERS), which is a multi-employer, defined benefit pension plan. The Board of Trustees, representing plan members and employers, is responsible for overseeing the management of the pension plan, including investment of assets and administration of the benefits. The Authority has adopted defined contribution plan accounting principles for this Plan because insufficient information is available to apply defined benefit plan accounting principles. The Authority records as pension expense the current service cost, amortization of past service costs and interest costs related to the future employer contributions to the Plan for past employee service.

December 31, 2022

2. Summary of significant accounting policies (continued)

Liability for contaminated sites

A contaminated site is a site at which substances occur in concentrations that exceed the maximum acceptable amounts under an environmental standard. Sites that are currently in productive use are only considered a contaminated site if an unexpected event results in contamination. A liability for remediation of contaminated sites is recognized when the Authority is directly responsible or accepts responsibility; it is expected that future economic benefits will be given up; and a reasonable estimate of the amount can be made. The liability includes all costs directly attributable to remediation activities including post remediation operations, maintenance and monitoring. The liability is recorded net of any expected recoveries.

Financial instruments

Cash and equity instruments quoted in an active market are measured at fair value. Accounts receivable and accounts payable are measured at cost or amortized cost. The carrying amount of each of these financial instruments is presented on the statement of financial position.

Unrealized gains and losses from changes in the fair value of financial instruments are recognized in the statement of remeasurement gains and losses. Upon settlement, the cumulative gain or loss is reclassified from the statement of remeasurement gains and losses and recognized in the statement of operations. Interest and dividends attributable to financial instruments are reported in the statement of operations.

For financial instruments measured using amortized cost, the effective interest rate method is used to determine interest revenue or expense.

All financial assets are tested annually for impairment. When financial assets are impaired, impairment losses are recorded in the statement of operations.

Transaction costs are added to the carrying value for financial instruments measured using cost or amortized cost. Transaction costs are expensed for financial instruments measured at fair value.

The Authority's financial assets comprise of cash and cash equivalents including investments which are recorded at fair value; and accounts receivable which are recorded at amortized cost. The Authority's financial liabilities comprise of accounts payable and accrued liabilities which are recorded at amortized cost.

3. Budget figures

The approved budget for 2022 is provided for comparison purposes on the statement of operations. Certain programs or specific projects budgeted for in the year were not completed as at December 31 and therefore a direct comparison of actual versus budget amounts for expenditures may not be appropriate.

December 31, 2022

3. Budget figures (continued)

The 2022 budget was approved by the Board of Directors when the municipal levy was set on February 25, 2022. The 2022 budgeted figures are unaudited.

4. Accounts receivable and other assets

Utilities and property taxes	323,844	156,901
Vehicle expenses	128,304	127,692
Wages and benefits	11,696,308	10,877,537
	\$ 25,479,203	\$ 15,673,287

8. Credit facility

The Authority maintains an operating line facility with an operating limit of \$500,000 which bears interest at prime, 6.45% (2021 - 2.45%), and is due on demand. As of December 31, 2022, no balance was payable under this facility (2021 - \$Nil).

9. Pension agreement

The Authority makes contributions to the Ontario Municipal Employees Retirement System ("OMERS") which is a multi-employer plan, on behalf of full-time members of staff and eligible part time staff. The plan is a defined benefit pension plan, which specifies the amount of the retirement benefit to be received by the employees based on the length of service and rates of pay.

OMERS provide pension services to approximately 500,000 active and retired members and approximately 1,000 employers. Each year an independent actuary determines the funding status of OMERS Primary Pension Plan (the Plan) by comparing the actuarial value of invested assets to the estimated present value of all pension benefits that members have earned to date. The most recent actuarial valuation of the Plan was conducted at December 31, 2022. The results of this valuation disclosed total actuarial liabilities of \$130.3 billion in respect of benefits accrued for service with actuarial assets at that date of \$123.6 billion indicating an actuarial funding deficit of \$6.7 billion. Because OMERS is a multi-employer plan, any pension plan surpluses or deficits are a joint

December 31, 2022

9. Pension agreement (continued)

responsibility of Ontario municipal organizations and their employees. As a result, the Authority does not recognize any share of the OMERS pension surplus or deficit.

Contributions made by the Authority to OMERS for 2022 were \$880,168 (2021 - \$849,469).

10. Contingent liabilities

Certain unresolved legal claims are outstanding against the Authority at December 31, 2022. No amounts have been accrued in the financial statements for any potential losses arising from these claims as the Authority anticipates any individual settlements will not exceed the limits of insurance coverage or the outcomes are not determined at this time.

11. Related party transactions

The Lake Simcoe Region Conservation Authority exercises economic interest over the Lake Simcoe Conservation Foundation as the Foundation was established to raise funds and obtain resources for the exclusive use of the Authority. During the year, the Authority received \$195,689 (2021 - \$432,008) from the Foundation towards specific program deliverables. Additionally, the Authority received from the Foundation \$165,999 (2021 - \$141,133) for expense reimbursement of Foundation related expenses. These transactions are measured at cost.

12. Financial instruments risks

Credit risk

Credit risk is the risk that one party to a financial instrument will cause a financial loss for the other party by failing to discharge an obligation. The Authority is exposed to credit risk resulting from the possibility that a counterparty to a financial instrument defaults on their financial obligations; if there is a concentration of transactions carried out with the same counterparty; or of financial obligations which have similar economic characteristics such that they could be similarly affected by changes in economic conditions. The Authority's financial instruments that are exposed to concentrations of credit risk relate primarily to its accounts receivable. The majority of the Authority's receivables are from government resources.

Liquidity risk

Liquidity risk is the risk that the Authority will encounter difficulty in meeting its obligations associated with financial liabilities. Liquidity risk includes the risk that, as a result of operational liquidity requirements, the Authority will not have sufficient funds to settle a transaction on the due date. The Authority is exposed to this risk mainly in respect of its accounts payable. The Authority mitigates this risk by ensuring that it always has sufficient cash to allow it to meet its liabilities when they become due.
